A LITTLE BIT ABOUT THE MUNRO...

The home was built by John Munro starting in 1850 with construction taking four years. It was designed by a famous English architect, Thomas Atkinson. It is one of three known cobblestone homes designed by a professional architect and the only one in Onondaga county.

The cobblestones were brought in by sled in the winter from the shores of Lake Ontario. All of the interior woodwork was built from trees on the property and are still in their original shape.

Now, the Carberry family, Bob & Pat and their four sons – Mike, Matt, Brian and Bob – hope to share this amazing space with couples & their families looking for a unique and historic setting for their wedding weekend.

“

When we decided to open the Munro we wanted it to be more than just a venue, we want it to feel like home. A place where couples come to celebrate, laugh, and create lifelong memories with the people they love most. Seeing our property filled with joy, happy tears, and unforgettable moments is why we do what we do. We have no doubt that The Munro family is smiling, knowing that this beautiful property they created so long ago will continue to bring so much joy, to so many people.”

LOVE,

*Bob, Pat, Mike, Matt, Brian & Bob
